PROFESSIONAL SUMMARY

Recent **B.Tech graduate in Artificial Intelligence and Machine Learning** with hands-on internship experience in **full-stack web development** and **UI/UX design**. Proficient in **React.js**, **TypeScript**, **Python**, and **Python Flask**. Built and delivered a production-grade **HRMS web application** end-to-end. Passionate about creating scalable, user-friendly software solutions with a strong eye for clean design and quality code.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries: React.js, Python Flask

UI/UX Design: Wireframing, Prototyping, Responsive Web Design

Developer Tools: VS Code, Git, GitHub

Design Tools: Figma, Adobe Photoshop

AI & Machine Learning: Supervised Learning, Classification, Computer Vision, Audio Signal Processing

Other: REST APIs, Online AI Tools, Agile Teamwork

INTERNSHIP EXPERIENCE

Software Engineer Intern

Vortexsoft Innovation Pvt. Ltd., Hyderabad | May 2025 – September 2025

- Developed a full-fledged **HRMS (Human Resource Management System)** web application from concept to deployment.
- Built interactive, responsive frontend interfaces using **React.js** and **TypeScript** following component-based architecture.
- Designed and integrated backend **REST APIs** using **Python Flask** to support core HRMS functionalities.
- Contributed to end-to-end **UI/UX design** including wireframing and prototyping in **Figma** for an intuitive user experience.
- Collaborated with cross-functional team members to deliver features on schedule in an **agile environment**.

PROJECTS

Automated Stroke Prediction Using Machine Learning

- Designed and trained **ML classification models** to predict stroke risk based on patient clinical health parameters.
- Achieved over **95% prediction accuracy** using feature engineering, data preprocessing, and model tuning.
- **Technologies:** Python, Scikit-learn, Pandas, NumPy

Forest Wildfire Detection – Machine Vision

- Built a real-time wildfire detection system using **computer vision** and image processing techniques.
- Achieved over **92% accuracy** in detecting fire and smoke from live video streams.
- **Technologies:** Python, OpenCV, Machine Vision Algorithms

Portfolio Website — [Live Demo](#) | [GitHub](#)

- Designed and developed a fully responsive **personal portfolio website** to showcase projects and skills.

- **Technologies:** React.js, TypeScript, HTML, CSS, GitHub Pages

Hand Clap Counter

- Developed a real-time application that detects and counts hand claps using **audio signal processing**.
- **Technologies:** Python, Audio Signal Processing Libraries

EDUCATION

Bachelor of Technology – Artificial Intelligence & Machine Learning

St. Martin's Engineering College, Secunderabad (JNTUH) | Dec 2021 – May 2025

CGPA: **6.58**

Intermediate – MPC

Sri Chaitanya Junior College, Hyderabad | 2019 – 2021

Percentage: **82.5%**

Secondary School Certificate (SSC)

SR Prime School, Nizamabad | 2018 – 2019

GPA: **9.0**

KEY STRENGTHS

Creative Thinking | Strong Communication | Quick Learner | Team Collaboration | Problem Solving
